

Instructions for creating your own audio interviews

Programs you'll need:

Tape-a-Call (App)

[Audacity](#) (Desktop)

[Soundcloud](#) (Website)

Step 1 - Tape-a-Call

Download Tape-a-Call App

Use it to record phone interviews

Write out interview questions ahead of time

Call person, then launch app

Click red button to merge

When complete, click on arrow and upload to your own computer

Step 2 - Audacity

Download "Audacity" onto your computer

Launch

Click File, Import, Audio

When file is imported you can click View, Zoom In to isolate bits of the audio you want to delete.

Highlight them then delete.

Save your project

When finished, hit File, Export

Export to your Desktop

Step 3 - Soundcloud

Create an account in Soundcloud

When you have your account open, click Upload

Select Mp3 file you've created

Upload and add photo, description
